Reg Team,

Attached is a revised version of the weekly ADP report to reflect the current status of OAQPS Rules. OAR would like to see all rules and non-regulatory items that we are expecting each month throughout the administration. I have updated all the dates using RLSO format to reflect current timelines, please make sure track changes is activated if you need to make any edits to this document. Also, check over your items to ensure they are correct, I have used ADP tracker, OAQPS Tracker, and information from our SCOUT meetings to update this document so it should be near completion.

The last request from the front office for this document is to prioritize actions in reference to workload. Use the "Priority" column to categorize actions based on workload using high, medium, or, low. Please have this document back to me by 11am on Friday so we can send it through OAQPS management for approval. I apologize for the short turnaround.
